Quick Summary

- 6+ years of experience at St. Louis based marketing companies.
- I've developed custom WordPress themes for 5+ years.
- I've helped craft the online presence of some of St. Louis's biggest companies, including Emerson and Peabody Energy.
- I'm a front-end developer who has fallen in love with UX design.

Skills

HTML, CSS, JavaScript, WordPress, Kentico, Adobe XD, Sketch, Jekyll, Git, Sass, Advanced Custom Fields, PHP, Angular, React

Experience

Obata / Interactive Developer

MARCH 2015 - PRESENT, ST. LOUIS

I help create user-centered digital products that solve business needs. I work with designers, developers and project managers to create a seamless experience across all modern devices.

Veterans Technology Group / Front End Web Developer

JANUARY 2015 - MARCH 2015, CLAYTON

I worked for a group of entrepreneurs and helped create and manage web presences for new companies. I decided to shift gears quickly because I wanted to work with and learn from a team of creatives.

Freeman Marketing / Front End Web Developer

JANUARY 2014 - NOVEMBER 2014, MAPLEWOOD

I started as an intern but worked my way on as a part time employee when the semester finished. This was my first experience with agency life, but it ended when the company closed a few months before graduating.

Education

Lindenwood University / BS - Computer Information Systems

AUGUST 2010 - DECEMBER 2014, ST. CHARLES
